

Subject: Invitation to the PK on 23.9. at 5 pm, Spreebogenpark

The "Hunger Strike of the Last Generation" becomes the " Uprising of the Many
Press release 01 - Invitation to the press conference on 23.9. 5 pm / Spreebogenpark

Dear media representatives, dear journalists,

As #takethechair, after three press conferences with hungry people, we now invite you to the first press conference under a new name. You will meet the people of the "Hunger Strike of the Last Generation", who have ended their strike in the past few days, there again tomorrow.

We look forward to seeing you on Thursday 23 September 2019, 5pm, now back at the camp in Spreebogenpark.

The former hunger strikers Lina Eichler, Mephisto, Rumen Grabow, Jacob Heinze and Simon Helmstedt will

- give a personal review of their hunger strike, which lasted up to 23 days each
- report on the great response to the hunger strike, and
- report on the non-response of the hunger strike on the part of politicians.

In this last point, three chairs will be of particular interest, which will be available for the invited candidates for chancellor, but which will have remained empty. Three days before the election, one day before the global climate strike, we will make these chairs a symbol of a new beginning.

#takethechair - three chairs will remain empty, take them!

Of course, it will not stop at these three chairs.

Because: hope does not lie in politics. Hope lies with the people who stop waiting, who stop accepting "business as usual" and who fight everywhere, in all ways, for the necessary change.
